CHARGED WITH MURDER.

Warrant Issued for Proprietress of an Iowa Maternity Home.

Des Moines, Ia., Feb. 1.—The Register and Leader says Mrs. F. West, proprietress of a maternity home, 1314 Thirty-fifth street, in an information filed before Justice Cope by Mrs. Elizabeth Baird, secretary of the Iowa Humane society, is charged with murder.

A warrant has been issued for Mrs. West.

Mrs. Baird was led to take this step through the discovery of a young girl, a former inmate of Mrs. West's home, and for more than a year employed there as a domestic and a nurse. This girl swore she was present at the time the alleged crime was committed and witnessed the death of the baby whom Mrs. West is said to have killed.

THREE JURORS IN THAW CASE EXCUSED AND THE SAME NUMBER CHOSEN.

MANY SENSATIONS DEVELOP

UNEXPECTED INCIDENTS CONSTANTLY OCCUR IN THE CELEBRATED CASE.

New York, Feb. 1.—Sensations were frequent in the Thaw murder trial during the day and before the two sessions of court had ended three sworn jurors had been released from service in the case, making five in all summarily excused from the trial panel during the past three days. In the case of two of the released jurors no explanation was made in court. The third was allowed to go upon a physician's certificate that his life would be imperilled by the close confinement of jury service. Three satisfactory talesmen were found to replace the excused jurors so that when the rapidly shifting situation underwent a survey at the close of the day there were again eleven men in the jury box.

Rumors are current that the end of the jury changes is not yet in sight and that further chapters may be added to what has already become an unprecedented record in criminal proceedings in New York city. There were several conferences of attorneys in the afternoon at which District Attorney Jerome is said to have vigorously argued the release of still another juror now on the panel. Thaw's counsel are said to have blocked this.

Resumed in Open Court.

The disagreement which first developed in Justice Fitzgerald's chambers before the afternoon session began was resumed in open court twice thereafter and engendered a bitter feeling among the attorneys. Heretofore the relations of the district attorney and his assistant with Thaw's counsel have been of the friendliest nature.

The first of the day's sensations came immediately after the opening of the morning session. The opening was delayed on account of a conference of the attorneys with the judge. This conference had hardly gotten under way when the rumor went out that two jurors were to be excused. When court opened District Attorney Jerome announced that it had been agreed to relieve Jurors David S. Walker and Louis Haas from further service. Mr. Walker, who is a son of John Brisbane Walker, was No. 4 and Mr. Haas No. 9 on the jury roll. Both are young men and unmarried. Neither could offer an explanation for the court's action in ordering their discharge.

It was taken for granted that the release of these two jurors had ended the day's surprises, but during the luncheon recess rumors of a further reduction in the personnel of the jury were put in circulation and another consultation of counsel with Justice Fitzgerald was held. It was stated that the juror was one whom Thaw and his counsel had been pleased to have on the trial panel and that the lawyers for the defense would fight to the last any effort to dislodge him.

Did Not Like to Release Jurors.

Thaw's attorneys had been none too willing to allow Walker and Haas to be replaced and it was only after a long argument by the district attorney that they consented in the case of the third man.

The afternoon conference evidently was one of some warmth for when Mr. Jerome appeared in the courtroom he was flushed and walked with the stride of an angry man. He dispatched his assistant, Mr. Garvan, on an important errand and sat down while the clerk began the roll call of talesmen.

When no announcement was made as to further discharges from the jury panel it was taken for granted that Mr. Hartridge and the others of Thaw's counsel had won the battle with the district attorney. The examinations of the first talesmen called after the conference were carried on under circumstances that indicated feeling existed on both sides.

Mr. Garvan returned after an absence of forty minutes and Jerome called another conference. There were indications of a lively argument but again to no avail and proceedings were resumed.

Toward the end of the afternoon session a messenger came from the district attorney's office, the result of which was a whispered conversation between Judge Fitzgerald and the attorneys, and it was announced that because of ill health Juror No. 11, Henry I. Kleinberger, a silk merchant, would be relieved from further service.

The New Jurors.

Two of the three new jurors added to the panel were secured at the morning session. They were Oscar A. Pink, a salesman, forty-eight years old, who replaced Mr. Walker as No. 4, and Wilbur S. Steele, a manufacturer, sixty years old, who replaced Mr. Haas as No. 9. The juror secured during the afternoon to replace Mr. Kleinberger as No. 11 is Joseph B. Bolton, fifty-seven years old, a clerk. All three are married and there is now but one bachelor on the jury, John S. Dennee, No. 10.

It is believed that the twelfth juror will soon be secured, but the uncertainty as to the term of service of a juror now sitting on the trial panel is so strong that predictions are all but worthless.

District Attorney Jerome announced for the first time that he will not make the opening address to the jury. He will turn the task over to his assistant, Francis P. Garvan, who has had immediate charge of the Thaw case.

THE RIVER AND HARBOR BILL.

Occupies Most of the Attention of the House.

Washington, Feb. 1.—The river and harbor appropriation bill occupied practically all the time of the house. After a short colloquy over the division of time and the paternal advice of the speaker to allow the chairman of the committee of the whole (Mr. Currier of New Hampshire) to control the general debate, the debate was inaugurated by Mr. Burton of Ohio, chairman of the rivers and harbors committee. Other speeches were made by Messrs. Bartholdt of Missouri, Ransdell of Louisiana, Snapp of Illinois, Lawrence of Massachusetts, Caudrey of Missouri, Morrell and Moore of Pennsylvania, Bannon of Ohio, Rhodes of Missouri, and the resident commissioner of Porto Rico, Julio Tarrinaga.

SENATE PROCEEDINGS.

Senator Rayner's Speech the Most Interesting Event.

Washington, Feb. 1.—Senator Rayner's address on the expansion of executive prerogatives, Senator Lodge's brief reply, and an extended discussion of the administration of the public land laws by Senator Heyburn, constituted the day's proceedings in the senate.

COMPROMISE EFFECTED.

Henry H. Rogers Settles With Gas Company Receiver.

Boston, Feb. 1.—A compromise settlement of the suit of George Wharton Pepper, the receiver of the Bay State Gas company of Delaware, against Henry H. Rogers of New York, to recover profits of between \$3,000,000 and \$4,000,000 on account of the sale of the several Boston gas companies, was announced in the United States circuit court. An agreement was reached by both parties.

Under the terms of the compromise agreement, Mr. Pepper accepts an offer of \$1,500,000 from Randall Morgan, treasurer of the United Gas company of Philadelphia, in consideration of an abandonment of the claims of the Bay State company against Mr. Rogers and in consideration also of stock in the Buffalo Gas company now held by the Bay State Gas company. This stock amounts to 30,000 shares. Mr. Morgan acts for Mr. Rogers in the settlement.

EVIDENCE AGAINST MINERS.

Supposed to Have Been Destroyed by Fire.

Colorado Springs, Colo., Feb. 1.—A special to the Gazette from Cripple Creek says:

Through a fire alleged to have been caused by "hellfire," a combustible liquid, certain documentary evidence, photographs and other valuable papers that were to be used as evidence against Moyer, Heywood and Pettibone, officers of the Western Federation of Miners, charged with complicity in the murder of former Governor Steunenberg of Idaho, which had been placed in the safe of the Mine Owners' association in this city, are believed to have been destroyed. The liquid will ignite by spontaneous combustion if kept in a place free from air. The combination on the safe had been affected by the heat and it is impossible to open it and ascertain the extent of the damage.

BLIZZARD IN DAKOTA.

The Worst Storm of the Season Now Raging.

Minot, N. D., Feb. 1.—North Dakota is again in the grasp of a fierce blizzard. A terrific wind storm accompanied by a light fall of snow bids fair to undo in a few hours what the railroad companies have spent days in trying to overcome. The blizzard is the worst that has struck the state this winter and the result to the food supply will be disastrous beyond measure. Little freight is arriving and no dead cars are being moved at all. All efforts are centered on bringing through the food supplies and fuel. Freight cars are being hauled by passenger trains in many cases on both roads.

WAR WITH THE JAPS

PRESIDENT ROOSEVELT SAID TO BELIEVE THAT IT IS LIKELY TO OCCUR.

BACK DOWN BY CALIFORNIA

DECLARED TO BE NECESSARY IN ORDER TO AVERT THREATENED CONFLICT.

Washington, Feb. 1.—A most serious and unexpected crisis has arisen in the heretofore friendly relations existing between the United States and Japan. The utmost exertions of trained diplomacy will be necessary to avert hostilities, precipitated by Japan.

One paramount concession to Japan is essential to restore the semblance of friendship. The educational authorities of San Francisco must restore Japanese children to the same privileges of public school attendance they enjoyed before the fire and earthquake.

It is seriously stated that the only preventive of war between the United States and Japan is the withdrawal of all action taken barring Japanese children from equal participation with white children in the common facilities afforded for an education.

The president has sent for the president of the San Francisco board of education and the superintendent of schools, plainly and unequivocally to inform them that their edict of non-admission for Japanese children must be withdrawn. He will appeal to their patriotism. He will ask them as American citizens to abandon the policy of exclusion. He will advise them that this is the first step in the direction of solving the problem without an open breach.

Japan Desires War.

President Roosevelt, in a conference lasting less than an hour and a half, convinced the entire California delegation in congress that the existing situation is extremely critical and that they must make some sacrifice of state pride for the general good. He did not differentiate as between the Japanese government and the Japanese people, but made the broad, sweeping, comprehensive declaration that Japan desires war and is seeking a pretext for its prosecution.

Every member of the California delegation was impressed by the president's utterances. All were satisfied that a more serious and critical situation is at hand than has been anticipated. They promised to render all possible assistance in seeking to obtain the removal of restrictions imposed on Japanese children by the educational authorities. They also pledged themselves to maintain a patriotic silence, being told by the president that publication of the real facts, if forwarded to Tokio, might greatly hasten the hostilities the administration is striving to prevent.

The president and Secretary Root are hopeful that if the action of the San Francisco school officers is rescinded friendly relations may be completely restored through diplomatic channels and a treaty arranged whereby Japanese coolies may be excluded from entering the United States. That this can be accomplished is still problematic.

President Roosevelt and Secretary Root have learned that a friendly power has intimated to Japan that funds to finance the war would be forthcoming should she engage in hostilities with the United States.

The Japanese government is threatened with overthrow if it does not win the diplomatic battle being waged for the restoration of Japanese children to the public schools of San Francisco. It is confronted with the choice of destruction by its own subjects or war with the United States. The matter of war would become merely a question of self-preservation.

LADY CUTHBERT KILLED.

Accidentally Shot by Her Husband While Hunting.

London, Feb. 1.—Lady Dorothy Cuthbert met with a tragic death at the hands of her husband during a pheasant shoot at Beaumont castle, Northumberland. The victim was only two yards distant from her husband, Captain James Harold Cuthbert, when his gun was accidentally discharged. The charge entered her head and she fell dead on the spot. Lady Dorothy was a daughter of the present Earl of Strathford.

Boy Accidentally Hanged.

Princeton, Mo., Feb. 1.—At the farm of James Mason near here Fred Brooks, aged fourteen, hanged himself from a barn rafter with a dog chain for the amusement of his playmates, but his feet slipped from a support and he strangled to death.

FORCED OUT OF BUSINESS.
Witness Tells How Harriman Took Away His Trade.

San Francisco, Feb. 1.—C. A. Severance, attorney for the interstate commerce commission, brought out evidence which he maintained showed that Harriman paid a price out of proportion to the value of the Coos Bay properties, realizing that he was putting the possibility of a source of competition out of the way. Commissioner Franklin K. Lane heard the testimony in this city.

E. A. Graham, who supplied this testimony, also testified that when Harriman acquired the Oregon Railway and Navigation company in 1901 his agents circulated literature throughout the Orient warning merchants and others not to ship freight over the Graham line, the Oregon and Oriental, as it had no transportation facilities on this side of the world. The circulars were dated at Portland. As a result of these methods, Graham said, his line went out of business.

Graham was called to the stand for a continuation of the story he related Wednesday, telling how Harriman forced his company, the Oregon and Oriental, out of business. He stated that the Oregon Railway and Navigation company, owned by Harriman, routed his inward freights and that he was required by contract to give the Oregon Railway and Navigation bills of lading over that road and its connections.

So stringent were the conditions of this contract that when Graham desired to give some of his freight to the Chicago, Milwaukee and St. Paul road, the officials, particularly Campbell, of the Oregon Railway and Navigation, would not permit him, but compelled him to ship over the Chicago and Northwestern and the Illinois Central, according to Graham's testimony.

ANOTHER ALDERMAN INVOLVED.

Reported That He Will Be Arrested on a Charge of Perjury.

New York, Feb. 1.—It was stated at the district attorney's office that as a result of the examination of several aldermen at the police court hearing of Alderman William S. Clifford, who is charged with accepting a bribe of \$6,000 with which to try to influence aldermanic votes in favor of Judge Rufus B. Cowing for recorder, a warrant for the arrest of another alderman probably would be issued. The charge, it was said, would be perjury.

It was learned that one of the aldermen, in his testimony, had so contradicted the sworn statements of other aldermen at Clifford's hearing that the prosecution felt warranted in asking for his apprehension.

At Clifford's preliminary trial several aldermen testified that Alderman Henry Clay Peters, the recognized leader of the municipal ownership league members of the board, had instructed them prior to the board meeting to vote for Cowing.

MATTER HELD IN ABEYANCE.

California Senate Will Take No Further Action on School Question.

Sacramento, Cal., Feb. 1.—A lively debate was precipitated in the senate by a message from the governor conveying to the senate a telegram received from the California delegation at Washington. The governor asked that in view of the apparent importance of the matter as indicated by the telegram, the senate take no further action on the Japanese question for the present.

Senator Caminetti made a sharp attack on the California delegation in Washington for its failure to take some action in congress on the Japanese question.

The message from the governor will be acceded to.

APPRECIATED IN JAPAN.

Efforts of President Roosevelt to Find Solution of School Question.

Tokio, Feb. 1.—The report that a satisfactory solution of the San Francisco school controversy is in sight is welcomed on all sides. The reassuring news is a fresh cause for profound satisfaction, as proving the firmness of the friendship existing between Japan and the United States.

The efforts of President Roosevelt to find a solution of the school question are highly appreciated.

EARTHWORK CRUMBLING.

Embankment Near Memphis in Danger of Breaking.

Memphis, Tenn., Feb. 1.—With the water overlapping the embankment and the earthwork crumbling, the breaking of the levee at Hilly Bush, a station four miles north of this city, is expected within the next few hours. Rain has fallen almost continuously.

At Marlon, Ark., hope of saving the levee has been abandoned.

At Helena, Ark., the entire north section of the city and several small towns in the vicinity are inundated.

GUILTY OF WIFE MURDER.

Chicago Man Sentenced to Fourteen Years in Prison.

Chicago, Feb. 1.—Joseph Stanska was found guilty of wife murder and sentenced to fourteen years in the penitentiary in record time here. His trial began at 10 a. m. An hour later a jury had been empanelled. At 4 p. m. testimony and arguments were completed and less than two hours were required for the jury to reach a verdict. Stanska shot his wife early last year. Jealousy was the motive.

Fire in Minnesota Mine.

Duluth, Feb. 1.—No. 2 shafthouse at the Fayal mine at Hibbing has been destroyed by fire. The mine fire department was unable to cope with the flames and the city department of Eveleth was summoned. INVESTIGATION IS RESUMED.

Commissioner Lane Continues Inquiry Into the Harriman Lines.
San Francisco, Jan. 29.—Interstate Commerce Commissioner Lane has resumed in this city his inquiry into the affairs of the railroads included in the so-called Harriman merger and the effect this merger has had upon competition between the lines affected. The case presented was designated the Pacific Coast jobbers against the Southern Pacific company. The railroad was represented by Attorney Peter F. Dunne and the shippers by Seth Mann. The shippers complained that they were charged 5 cents wharfage tolls on every ton of freight that entered the city, whether it came across the bay or over the coast line, in which latter case there was no lawful wharfage tax to pay. On the coast line freight enters San Francisco from over the county peninsula. It was claimed that this tax was a discrimination against the commerce of San Francisco as compared with other terminal points on the coast. Commissioner Lane claims San Francisco as his home city, and being well informed on the local situation, took an active part in the examination of witnesses. Mr. Mann made a statement of his case and General Freight Agent Lucius of the Southern Pacific was a witness. He was asked if the Southern Pacific divided the whole amount received with connecting lines or retained the wharfage collected and divided the remainder. He replied that the toll charge of 5 cents per ton was not divided.

ON HIS CHILD LABOR BILL.

Senator Beveridge Continues His Argument in the Senate.

Washington, Jan. 29.—Senator Beveridge occupied the attention of the senate throughout the day with a continuation of his argument in behalf of his child labor bill. He had but reached the legal and constitutional phases of the question after speaking for more than four hours, when he postponed the remainder of his address for a day.

In taking the position that as to power congress could exercise any restraint it saw fit on interstate commerce, Mr. Beveridge met a fusillade of questions by his colleagues and his progress in argument was slow. While he said the power to regulate was absolute, he maintained that the question of policy would always restrain any hasty regulations.

The senate adopted a resolution directing the interstate commerce committee to report as to the position in its employ held by C. S. Hanks, who recently stated before the Boston Chamber of Commerce that railroad rates could be reduced 10 per cent without impairing dividends. The resolution also asks for the facts on which this statement was based.

Both houses adopted a joint resolution continuing the joint postal commission until its affairs can be wound up.

DISTRICT DAY IN THE HOUSE.

Score of Bills Relating to the District of Columbia Passed.

Washington, Jan. 29.—Twenty bills relating to the District of Columbia were passed in the house, it being "District day" under house rules. Do You Like Honest, Square Dealing?

Dr. Pierce's world-famed medicines are put out under the belief that publicity is the best possible guaranty of merit, and that the most intelligent people generally want to know what they take into their stomachs, whether it be as food, drink or medicine. Although it was a bold step to take, and quite out of the usual practice of makers of proprietary medicines, yet Dr. Pierce, some time ago, decided to publish broadcast and on all his bottle-wrappers all the ingredients entering into the composition, or make-up, of his celebrated family medicines. A square deal is therefore assured every one using his medicines, for one knows exactly what he or she is paying for when purchasing them, since every ingredient is published in plain English on the bottle-wrappers and the correctness of the same attested under solemn oath. These several ingredients are selected from among the very best known to medical science for the cure of the various diseases for which these medicines are recommended.

The most eminent and leading medical teachers and writers of all the several schools of practice have endorsed each of the ingredients entering into Dr. Pierce's medicines in the strongest possible terms. The makers of Dr. Pierce's medicines believe that intelligent people do not wish to open their mouths like a lot of young birds and gulp down whatever is presented to them, either in the way of food, drink or medicine, without knowing something of the properties and character of the agents employed. They believe that health is too sacred a heritage to be experimented with, and that people should not take medicines of the composition of which they are kept in ignorance. Dr. Pierce's medicines are made wholly from the roots of plants found growing in the depths of our American forests. They are so compounded that they cannot do harm in any case, even to the most delicate woman or child. By open publicity Dr. Pierce has taken his medicines out of the list of secret nostrums, of doubtful merit, and made them REMEDIES OF KNOWN COMPOSITION. They are therefore, in a class all by themselves, being absolutely and in every sense non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny. There is a badge of honesty on every bottle of Dr. Pierce's medicines in the full list of its ingredients duly attested as correct under solemn oath. No other medicines put up for general use through druggists can make claim to any such distinction, and none other than Dr. Pierce's medicines have any such professional endorsement of their ingredients. Such professional endorsement should have far more weight with the afflicted than any amount of lay, or non-professional, endorsement, or testimonials.

Of course, the exact proportion of each ingredient used in Dr. Pierce's medicines as well as the working formula or manner of preparing the same, and the specially devised apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may be fully protected from such unprincipled imitations as might be piratically inclined.

The First Baptist church, of this city, will dedicate their new house of worship about the first of March. The memorial window purchased for the church by the Baptist Young People's union is now in place and so far as can be seen from the outside it is one of the most handsome in the city. There has been an unexpected delay in securing the electric light fixtures for the building which has hindered the dedication but it is expected that they will be in place so that the dedicatory services can take place in about a month, or about the first of March.

SO DECEPTIVE.

Many Brainerd People Fail to Realize The Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing. Learn the cause—then cure it. Nine times out of ten it comes from the kidneys.

That's why Doan's Kidney Pills cure it. Cures every kidney ail from backache to diabetes.

Here's a Brainerd case to prove it: Ed. Dechaine, of 601 Fifth St. S., Brainerd, Minn., says: "Hard work brought on a disturbance of the kidney action and I suffered considerable backache at times. This condition led me to go to H. P. Dunn & Co's drug store where Doan's Kidney Pills were advertised and get a box which I used according to directions. The backache was quickly banished and the kidney secretions were regulated. I gladly recommend such a valuable remedy to people of Brainerd."

NATURE'S CATARRH CURE

Sensible and Scientific Way to Cure this Disagreeable Disease.

Nearly everyone suffers at one time or another with catarrh.

The natural way to cure this disagreeable disease is by applying healing medications direct to the diseased spot.

In no other way can this be done as naturally as by the use of Hyomei, breathed through the neat pocket inhaler that comes with every outfit.

Put several drops of Hyomei in the inhaler and then for a few minutes, four or five times a day, let the air you breathe come through it. In that way all the air that enters the nasal passages the throat or the lungs, is filled with Hyomei's healing medication, reaching the most remote air cells of the respiratory organ, destroying all catarrh germs and soothing and healing the irritated mucous membrane.

A few days' use of Hyomei will show how quickly it relieves all catarrhal conditions, and you will not have to use it long before you find it has effected a complete and lasting cure.

So strong is H. P. Dunn & Co.'s faith in the power of Hyomei to cure catarrhal troubles that with every dollar outfit they give a guarantee to refund the money unless the remedy gives satisfaction. They take all the responsibility and you cannot afford to suffer longer with catarrh when an offer like this is made to you.

Should extra bottles of Hyomei be needed they can be obtained for 50 cents making this one of the most economical as well as the most reliable remedies for catarrh that is known.

FOR HIMSELF

Cass County Deer Killer Tries to Trick Game Warden Saunders but Gets Caught

OTHER MEN STOLE CARCASS

And Slayer Tried to Have Them Arrested for Killing the Deer out of Season

According to a dispatch from Pine River to the Minneapolis Journal a poacher near Pequot tried to get Deputy Warden Saunders to arrest the men who stole a carcass from him but got caught at it. The Journal says:

"A peculiar case for Game Warden Saunders, of Brainerd, was brought to his attention by telephone from Pequot Frank Seidl, a young man, piloted Saunders to a lumber camp, fifteen miles west of Pequot, where he showed the warden a deer carcass, which he said was shot by C. F. Ylander and Nels Locke.

"Saunders started an investigation, and found that the young man who had made the complaint really did the shooting, in company with W. C. Cornish, but the men whom he wanted to have punished had stolen the carcass from them after they had shot it. Seidl thought his plan a good way to get even.

"Under the circumstances there was only one thing for the game warden to do and he went to the county seat for a warrant for Seidl, which he served on Wednesday evening. The law prescribes a fine of from \$50 to \$100 and sixty days in jail."

How to Avoid Appendicitis

CONDEMNATION PROCEEDINGS

Government to Acquire Land in Five Northern Counties for Reservoir Purposes, 1,600 Acres in All

Under instructions from the federal authorities at Washington Paul E. Ewart, of St. Paul, first assistant United States attorney for Minnesota, has begun proceedings to condemn something more than 1,600 acres of private lands, 168 separate tracts, located in five counties of Northern Minnesota, Crow Wing, Beltrami, Itasca, Aitkin and Cass.

These lands are to be bought to secure the overflowage rights for the enlargement of the upper Mississippi reservoirs, Winnibigoshish, Pine River, Pokagema and Leech lake. In addition, the government has recently closed deals for private sale to the United States of several thousand acres of land adjoining the reservoirs. The lands to be condemned is simply that which the government has found it unable to purchase at what federal officials believe to be a fair price.

The federal government will also condemn considerable state land located in ranges 27 and 28 of section 34, township 137, Crow Wing county. This land is being secured on which to build dikes to hold back the waters of the enlarged Pine river reservoir.

THE DAILY DISPATCH brought to your door for only 40 cents per month

Resolutions to This Effect Passed at Last Revival Meeting—Also Various Other Resolutions

At the last revival meeting on Wednesday night the following resolutions were adopted:

WHEREAS, the revival campaign under the leadership of Rev. W. B. Riley, D. D., and Rev. C. M. Martin, which has been carried on during the past month in this city with such blessed results, both to the church membership which has been greatly quickened and the several hundred who have received a deep interest in their souls' welfare and,

WHEREAS, the deep and profound consecration of these men to the cause of Christ both in preaching and singing the gospel, have done much for the moral welfare of our city in many ways, and,

WHEREAS, we feel it incumbent upon us in some way to show our appreciation of their labor of love among us, therefore,

BE IT RESOLVED, that we by a rising vote, show them our heartfelt joy for their indefatigable labors in behalf of the churches of Brainerd and those on the outside who have felt their influence, and pray Almighty God that they may be as instrumental in winning men and women to Christ's truth and kingdom in other places where they may be called to labor, as they have been among us.

WHEREAS, the press of this city have shown great kindness in giving much space to the notices concerning this revival campaign, particularly THE BRAINERD DISPATCH, and in so doing have helped greatly in making the meetings known, thus helping the revival to reach a larger number, therefore,

BE IT RESOLVED, that we hereby show our appreciation of such kindness, and pray Almighty God that they may continue to give space in their pages concerning the sacred things of life, and,

WHEREAS, Mr. Christian Bruhn, the efficient treasurer of the campaign has been unceasing in that official capacity, and revival workers realizing this, therefore,

BE IT RESOLVED, that we show him our appreciation of his untiring efforts in this direction, and pray God's blessing upon him, and,

WHEREAS, Miss Theresa Schulz, Miss Kathleen Rounds and Miss Hallie King, the pianists, and others who may have served in this capacity have attended so regularly to their work in this revival campaign, therefore,

BE IT RESOLVED, that in this way we show them our deep appreciation of their faithfulness, and,

WHEREFORE, scores of the laity who assisted in the erection of this tabernacle did so without a cent of remuneration, some of them giving three days to the work, therefore,

BE IT RESOLVED, that we extend to them our heartfelt praise for the practical Christianity thus shown, and

WHEREAS, it has necessarily called forth the spirit of Christian duty by way of giving money to carry on this revival campaign to a successful issue, therefore,

BE IT RESOLVED, that we thank all who have thus contributed, and pray our heavenly Father that they may be blessed with the experience of knowing that it is "more blessed to give than to receive, and,

WHEREAS, the Ministerial association realizes that it would be impossible in any one set of resolutions, to thank all who have in any way helped to make the revival the success it has, therefore,

BE IT RESOLVED, that to all we extend a heartfelt vote of thanks for their many kind acts, and pray the Father's blessing upon them.

WHEREAS, in this city of Brainerd in open violation of the law, the saloons and gambling dens are kept open during the Sabbath and are permitted to do their nefarious work after hours each night, therefore,

BE IT RESOLVED, that we hereby request the mayor and officials whose solemn duty it is, to see that the law is rightly enforced under all circumstances, we promising to do all in our power to bring on an era of civic righteousness, which would be of untold benefit to the moral welfare of our city.

WILL TAKE A REST

R. Parker will Close out Present Stock of Dry Goods and Then Rest Until New Building is Finished

An inventory is being taken of the dry goods stock of R. Parker which was saved from the recent fire. A. Q. Parker stated to a DISPATCH representative this morning that as soon as the invoice is completed and the stock put in shape it will be placed on sale at prices that will make it go, and that when it is closed out they will take a rest until the new building will be ready. No part of the present stock will be taken into the new building. The firm has been in business for 25 years and feels that it is entitled to a rest.

BUNGALOW AT CROOKED LAKE

Joseph C. Wood has let Contract for Erection of Fine Summer Resort There

WILL EXPEND ABOUT \$15,000

In Providing Summer Outing Place for Himself and Friends in Crow Wing County

Hon. Joseph C. Wood, of St. Paul, will expend in the neighborhood of \$15,000 at his summer home at Crooked lake this coming season. He will erect a handsome bungalow, which will accommodate a large number of guests and will provide launches, bowling alleys and other means of enjoyment and amusement for them.

The bungalow will be 76 feet long by 48 feet wide, including the large covered verandas. The basement and pillars will be of masonry, built of the native boulders. The interior finish will all be Georgia yellow pine. The building will be heated by hot water and two large fire places. There will be bath rooms with hot and cold water and also laboratories with hot and cold water in each sleeping room. The laundry will be in the basement and will be equipped with the latest design of set tubs.

The bowling alley will be a regulation 65-foot alley and will terminate in a boat pavilion which will accommodate two launches and numerous row boats. There will be a complete electric light plant and a system of water works including a stand pipe. In fact there will be every modern improvement.

The contract for the carpenter work and building hardware has been let to the White Brothers of this city, who will go to work just as soon as the masonry is completed in the spring.

How to Avoid Pneumonia

FOR CITY SCALER

Movement is Being Started to Have Official Appointed to Scale Wood Offered For Sale on Streets

Owing to the numerous complaints being made of short measure in wood and misrepresentation as to the amount delivered there has been a movement started to have a city scaler appointed whose business it shall be to scale all wood offered for sale, the scaler's certificate being furnished by the party delivering as evidence of the amount to be settled for. There is certainly ground for complaint, buyers, especially women being often imposed upon. The scaling of wood, it is said, could not be made compulsory, but anyone could demand to see the certificate if he so desired. This would, it is said, in no way interfere with the selling of wood by the load. Some, however, question seriously whether there would be a large enough number of people who would ask for certificates to pay a man to bother with the job. Many would prefer to measure the wood themselves.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. H. P. Dunn & Co. mwfdw

BUSINESS PROVERBS.

Not the big earner, but the wise investor, is the future capitalist.

The wise man knows that wealth is not worth getting save for the purpose of using and so gets after it early.

Investment is putting money into chicken farming; speculation is counting the chickens before they are hatched.

The chap who does his work indifferently because he thinks he is above his job thereby proves his unfitness for the job that is above him.

The man who yields to honest persuasion slowly and imperceptibly, as rock to water, may make a loyal investor when won. But he who is quick to lay hold of a good investment makes the most money.

Multitudes of people sleep soundly nights, believing their savings to be protected in the banks, not dreaming that the banks have invested them in business enterprises that the depositors themselves declined to buy shares in because they thought their earnings were too large to be safe.—Cent Per Cent.

STAPLES' AMATEURS

Dramatic Club From Sister Town to Play "Carpet Bagger" at Brainerd Opera House Next Friday Evening

The Staples' Amateur Dramatic club has secured a date in the Brainerd opera house for Friday evening, Feb. 8, and will produce a dramatization of Opie Reid's popular novel, "The Carpet Bagger." The story is strongly dramatic and if well dramatized and well staged should make a very good attraction. Our sister town is said to have some fine talent in the dramatic line and the previous performances are said to have been fine. The club will play the "Carpet Bagger" at Staples the evenings of the 5th and 6th of February.

Hitch in Dam Proceedings

A controversy has arisen with reference to the provision of the pending river and harbor bill involving the \$145,000 appropriation for the Sandy lake and Gull lake reservoirs in Minnesota. The point is especially with reference to the overflowed lands in the vicinity of these reservoirs, and the provision that the land is to be donated to the government, according to a dispatch.

No proposition is advanced for securing the condemnation of land, and the question arises as to how the proposed donations of land can be enforced under the provisions of the bill. Whether the complications will be such as to defeat the proposed appropriation of \$145,000 has not yet been determined by the members of the Minnesota delegation, who are looking into the matter.
